1. Based on the Plans of Mobility for the municipalities of Berat, Gjirokaštër, Përmet and Sarandë, considering terrain morphology and traffic aspects in them as well, the following typologies of vehicles are proposed in order to facilitate tourism related mobility issues in respect of sustainable environment and transport. The operator of these vehicle has been a considerable variable in proposing the typology and quantity of vehicles. All vehicles should be branded as requested by the relevant municipalities in order to promote them. All the works for the installation of the charging facilities or related to the stationing of the vehicle should be executed by licensed subjects in accordance with the Albanian Law.
